Mr. German,

Thank you for contacting me to provide this statement. I believe in transparency and appreciate the opportunity to set the record straight. I am pleased to have the former Clark County Coroner Mike Murphy join my team as my temporary assistant director. His assistance will allow me to focus on serving the community and continuing our success. Also, having reported statistically that our operational efficiency has been approximately 200% of levels in 2018, the year before I started, I welcome Mike's independent observations of our office operations. Likewise, I expect he will find that the source of any difficulties in this office is not as has been relayed to you.

The false accusations of individuals who put self-interest over service are a distraction, and I will not let that deter the fulfilment of my commitment to the community. So, while it is true that both myself and one of my staff members are currently running for the same office, my focus is on ensuring that our clients receive the important services we provide in a caring, knowledgeable, and efficient manner.

Thank you again for reaching out. I appreciate the opportunity to respond on the record.

Very sincerely yours,

Robert Telles  
Clark County Public Administrator
